WE LET BUSINESS FLOW

Chrome River lets business flow for some of the world's largest and most respected global organizations including Toyota, Hard Rock International, Harman, DSW and Kelly Services. Our highly configurable, cloud-based expense reporting and supplier invoice automation solutions deliver an elegant and intuitive user interface, which offers the same high-quality experience on a smartphone, tablet or laptop. Our SaaS products, built on a world-class business rules engine and technology infrastructure, support today's rapidly changing business climate. Users at every level—CFO, AP, travel manager and employees—all love the flexibility and ease of use. Through Chrome River's integrated set of dashboards, entry screens, account selections, compliance policies, routing rules and approvals, our products deliver seamless efficiencies for an organization's operations as well as a delightful experience for employees, travel and finance professionals. There are no up-front hardware or software costs, and upgrades to the solution are smooth and timely. With immediate improvement to operations, organizations deliver instant ROI.

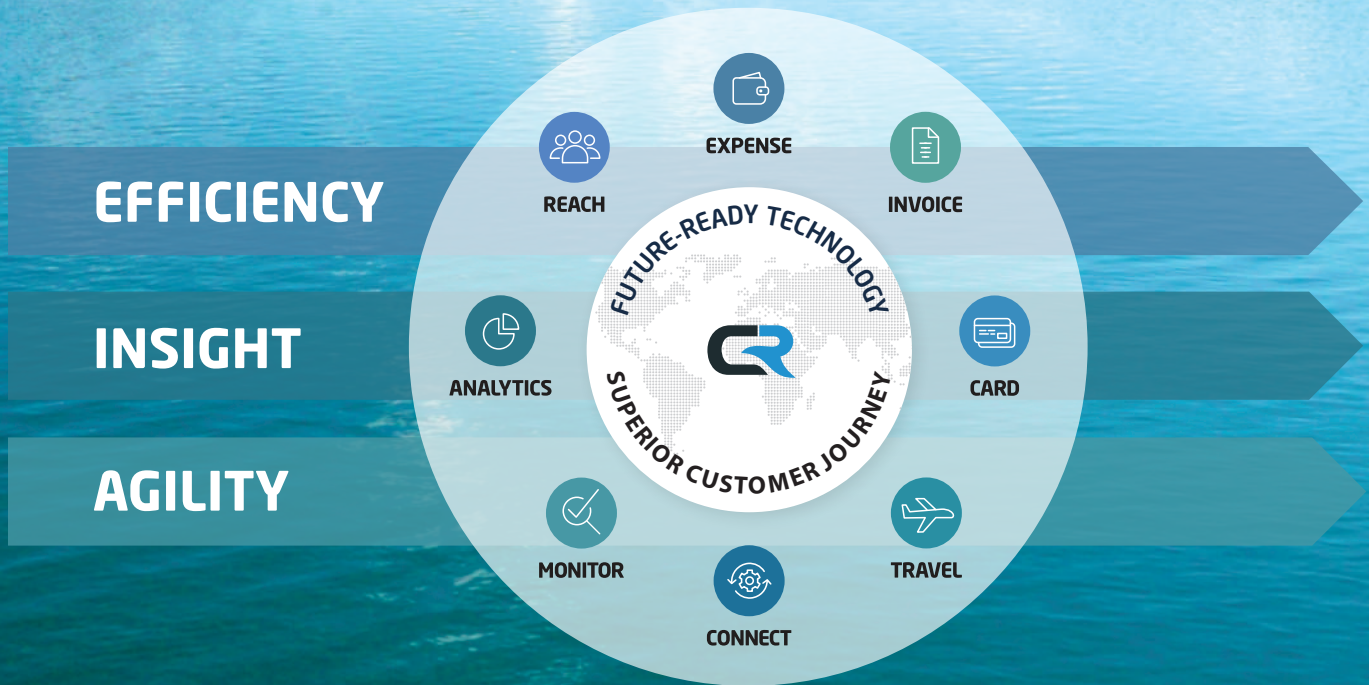

Partnering for a Long-Term Superior Customer Journey

Customer satisfaction and happiness are our focus. Chrome River works with you to create a solution configured to meet your organization's specific needs. We support you with one of the finest and most experienced teams of professionals in the industry through go-live and beyond into your day-to-day operations. As your trusted advisor, we provide a myriad of ways for your organization to utilize our solutions to their fullest extent. Our dedicated teams provide the support necessary to leverage your investment in Chrome River's offerings well after the initial implementation. Our 98% customer retention rate attests to the satisfaction of our customers and the quality of the services we deliver.

Our mission includes a long-term commitment to innovation and support so our customers can let business flow.

TECHNOLOGY THAT ENABLES FUTURE-READINESS

Architecture and technology that provides one digital experience across all devices to embrace change and grow with you as we support your needs today and beyond.

Expense – Create, submit or approve expenses anytime, anywhere, on any device. Control costs with automated, realtime policy compliance monitoring and approval routing. Meet regulatory requirements with a flexible, configurable, embedded business rules engine.

Invoice – Fully mobile invoice management solution that expedites invoice processing and supplier payments with increased visibility of spend, enabling AP teams to drive savings.

Card – Increase your finance team’s efficiency with Chrome River’s extensive credit card expense processing capabilities. Chrome River automates everything from reconciliation to payment for accurate and timely card management.

Travel – Exceed your global organization’s travel requirements by partnering with Chrome River and your preferred travel vendors. Our agnostic approach to -travel means that you can leverage a best of breed approach to travel and expense management.

Connect – Modern integration platform that offers the flexibility to integrate a broad range of travel, financial, human resources, and corporate card providers. Open platform empowers your business systems to seamlessly integrate with and leverage data from Chrome River.

Monitor – Embedded business rules engine allows you to configure compliance rules to reduce errors, enforce policy and minimize risk.

Analytics – Convert spend data into actionable reports with a world-class business intelligence reporting engine. Make data-driven business decisions using spend analytics and key operational metrics.

Reach – Enable your organization to quickly and easily manage reimbursements to non-employee groups such as job candidates, external consultants, and contractors.
